## GRI content index – Prosus FY25

As we mature on our sustainability journey, we are guided by best practice and globally respected reporting frameworks like the Task Force on Climate-related Disclosures (TCFD), Global Reporting Initiative (GRI) and the Sustainability Accounting Standards Board (SASB). Prosus' annual report has been prepared with reference to the GRI 2021 Standards. The table below provides an overview of the relevant GRI Standards for our most material topics and where to find information in the report or from other sources.
